Information:

C : Compulsory

E : Elective

The number of credits provided is 169, which consists of:

- a. Number of credits for compulsory courses : 139 credits
- b. Number of credits of elective courses available : 30 credits

Students are declared passed if they take a minimum of 148 credits with the following details:

- a. Number of credits for compulsory courses : 139 credits
- b. Number of credits of elective courses available : 9 credits

L. COURSE ROADMAP

Course Roadmap Regular and Freedom To Learn – Independent Campus (MBKM) 1
Undergraduate Programme in Economics, Finance, and Banking

M. ILO ACHIEVEMENT IN SEMESTER

1. ILO 1: Capable of internalizing professional academic values, norms, and ethics

2. ILO 2: Capable of demonstrating a responsible attitude towards work in his/her field of expertise independently

3. ILO 3: Capable of applying logical, critical, systematic, and innovative thinking in the context of the development or implementation of science and technology that pays attention to and applies humanities values in accordance with their field of expertise

4. ILO 4: Capable of compiling a scientific description of the results of studies on the implications of the development or implementation of science and technology that pays attention to and applies the values of the humanities in accordance with their field of expertise based on scientific principles, procedures and ethics in order to produce solutions, ideas, designs or art criticisms, compiling a scientific description of the results the study in the form of a thesis or final project report

5. **ILO 5:** Capable of making appropriate decisions in the context of problem solving based on the results of information and data analysis

6. **ILO 6:** Demonstrating a suitable way of thinking in economics, finance and business

7. **ILO 7:** Capable of applying economic, financial, and business theory to analyse economic development issues and policies in order to solve economic problems at regional, national, and global levels

8. ILO 8: Capable of designing and conducting research, analyse and interpret data with quantitative and qualitative approaches in the fields of economics, finance, and banking

9. ILO 9: Capable of mastering the concepts and theories of economics

10. ILO 10: Capable of mastering the concepts and theories of applied economics in finance and banking

N. ASSESSMENT METHOD FOR MEASURING ACHIEVEMENT INTENDED LEARNING OUTCOME (ILO)

1. Assessment of learning outcomes based on the grading system

The assessment procedure for PS EKP in all courses (except KKN-P and Thesis) is based on the assessment procedure contained in the FEB UB manual. The assessment procedure uses a grading system based on an OBE-based curriculum which consists of two methods, namely the case method and team-based project. The following are the assessment components for the case method:

Components	Proportion
Participation	55%
Quiz	5%
Task	10%
Mid-Semester Exam (UTS)	15%
Final Semester Exam (UAS)	15%

Note: *) the proportion of the assessment components is adjusted to the learning outcomes and assessment methods in each study program

Meanwhile, the assessment components for the team-based project can be seen in the following table.

Components	Proportion
Participation	25%
Quiz	10%
Project	35%
Mid-Semester Exam (UTS)	15%
Final Semester Exam (UAS)	15%

Based on the proportion of these value components, the absolute value calculation is as follows:

NA Case Method: $0,55 P + 0,5Q + 0,1 TS + 0,15 UTS + 0,15 UAS$

NA Team Based Project: $0,25 P + 0,1Q + 0,35 HP + 0,15 UTS + 0,15 UAS$

Absolute Score	Letter Score	Letter Grade Proportion
>80 - 100	A	4.0
>75 - 80	B+	3.5
>69 - 75	B	3.0
>60 - 69	C+	2.5
>55 - 60	C	2.0
>50 - 55	D+	1.5
>44 - 50	D	1.0
0 - 44	E	0.0

For KKN-P has its own assessment method. The final KKN-P score is a combination of the scores given by the KKN-P partners and also the KKN-P supervisor lecturers. The following are the assessment components for KKN-P partners and supervisors as follows:

KKN-P Partner Assessment		KKN-P Advisor	
Assessment Component	Score Range	Assessment Component	Score Range
1. Technical ability/assignment of KKN-P material	0-100	1. Relevance area of expertise	0-100
2. Creativity	0-100	2. Ability to explain (maintain)	0-100
3. Leadership	0-100	3. Level of difficulty	0-100
4. Communication skills	0-100	4. Report presentation	0-100
5. Discipline	0-100		
6. Politeness	0-100		
7. Appearance	0-100		
Average score of KKN-P partners	0-100	average score of the supervising lecturer	0-100
KKN-P Final Score = $\frac{\text{Average Score of KKN-P} + \text{Average Supervisor Score}}{2}$			

The seven aspects assessed by the KKN-P Partners were averaged, as were the four aspects assessed by the KKN-P supervisors. The average results of the KKN-P Partner scores and supervisors are added up and then averaged again to obtain the absolute final score. The provisions for the final grade of KKN-P in letters follow the same provisions as other courses

As for the thesis using a different assessment method. The thesis examination stages are divided into 2, namely the Proposal Seminar Examination and the Comprehensive Examination. The Proposal Seminar Exam has a weight of 33% and the Comprehensive Exam has a weight of 67% towards the final score of the Student Thesis. The provisions for the final value of the Thesis in letters follow the same provisions as other courses. For each exam has the same assessment components, namely:

Assessment Component	Proportion
Thesis Quality	50%
Mastery of Thesis & Theory Materials	30%
Presentation Quality	20%
Total score	100%

2. Assessment of ILO Achievements

The following is the method of measuring or achieving ILO PS EKP:

- a. Develop linkages between CLO and ILO PS EKP
- b. Develop CLO weighting based on assessment components (participation, quizzes, assignments, UTS, UAS). The CLO weighting for each component of the course is arranged based on the relevance between the ILO/CLO and the assessment method which is distinguished based on the CLO aspect and the type of courses offered, as shown in the following table:

ILO/CLO Group	Nature of Courses	Assessment Method
Attitude	Theory & Applied Economics Course	Participation & Assignments
Knowledge	Theory & Applied Economics Course	Assignments, Quiz, UTS and UAS
Applied Skills/Analysis	Applied economics & analytical methods course	Participation and Assignments

- c. ILO and CLO achievement standards

Score Range	Achievements
80	Excellent
65 score < 80	Good
50 score < 65	Fair
0 score < 50	Poor

O. SUSTAINABLE QUALITY IMPROVEMENT ASSESSMENT METHOD (CQI)

The outcome-based curriculum (Outcome Based Education) has been applied to PS EKP so it is necessary to carry out quality assurance on the OBE curriculum which aims to monitor continuous quality improvement (CQI). Referring to the UB FY 2020-2021 guidebook, each study program is formed by setting its mission and vision, which then becomes the basis for determining Intended Learning Outcomes (ILO), and will then be implemented in detail in Course Learning Outcomes (CLO). Therefore, every study program at UB every semester must conduct an assessment, analysis where the direct method is applied, namely testing the achievement of CLO through courses to evaluate students' abilities.
